

Pre-Blended Integral Concrete Color

BonWay™ Pre-Blended Integral Color is made of pure natural and synthetic metal oxide pigments with no fillers or extenders. Provides long lasting, fade resistant color for plain or stamped concrete. Sold in easy to use, pre-measured dissolvable bags (5 lb. or 10 lb.) for use in redi-mix truck.

Note: Colors shown approximate the final color, after a coat of sealer has been applied. Many factors outside of our control affect the final outcome of the project. Consider mix ratio, hydration, cement, aggregate, cure time and other factors upon review of the final project. It is recommended to perform a test pour.

PRE-BLENDED COLOR CHART
